want *You* To Know

OCTOBER IS Breast Cancer Awareness Month

AWARENESS • SCREENING • EARLY DETECTION • SAVES LIVES

The more you know about your health; the healthier you can be.

1

You have regular screening mammograms, starting from age 40, earlier depending on risk factors. **Book your mammogram today.**

2

1 in 8 women in the US will develop breast cancer in their lifetime. Black women in the US face a breast cancer mortality rate that is **38% to 42% higher** than that of white women. Many social determinants factor in to these numbers.

3

Early detection significantly improves treatment success and survival.

SATURDAY

8:00 a.m. – 11:30 a.m.

Attend our Health Fair on October 24th:

Breast Health Session

on the latest statistics of
African American Breast Health.
